Describe your company culture

Engineered solutions for hydraulic and pneumatic applications

Milwaukee Cylinder is a well-established and recognized manufacturer of highly engineered cylinder solutions and a manufacturer of a standard range of hydraulic and pneumatic NFPA tie-rod cylinders.

Milwaukee Cylinder was established in 1956, and is ISO 9001:2015 certified.

By working directly with our customers, Milwaukee Cylinder has developed a reputation for high level engineering expertise in the manufacture of a broad product line of standard and specialty cylinders. For over 60 years, Milwaukee Cylinder has become known as the company where “Specials are Our Standard”.

At Milwaukee Cylinder, we operate with a spirit of innovation and creativity, dedicated to meeting the needs and challenges of today’s most demanding applications. We take pride in providing products that have been proven and tested by the world’s leading manufacturers in the harshest environments.

With our on-going commitment to research and development, as well as our worldwide sales and distribution network, we continue to meet and exceed demanding customer

requirements and provide world-class customer service. From initial design to after-sale support, we provide high levels of quality in product and support for our customers.
