### **What technology or markets do you focus on?**

Motion serves the industrial marketplace with MRO (maintenance, repair, and operation) replacement parts and services . Customers have access to over 4.6 million parts from Motion's extensive line of authorized brands in Bearings, Mechanical Power Transmission, Electrical and Industrial Automation, Hydraulic and Industrial Hose, Hydraulic and Pneumatic Components, Industrial Supplies, and Material Handling.

### **Describe your company culture**

Motion is an American distributor of industrial parts and industrial technology solutions headquartered in Birmingham, Alabama. Since 1972, it has been a wholly owned

subsidiary of Genuine Parts Company. We are committed to operating our business with integrity – contributing our time, talent, and resources to supporting our local communities, promoting an inclusive and diverse workplace, and being thoughtful stewards of our environment and natural resources. Our goal is to achieve positive impact that matters – to society and to the planet.
