Electronic air pressure regulators and air flow control valves

Describe your company culture

Proportion-Air was founded in 1985 manufacturing electronic air pressure regulators and air flow control valves. Proportion-Air has improved the electro-pneumatics industry and by extension, the world we live in today. Our products are applicable in a wide range of areas from industrial, entertainment, aerospace, medical, dental, transportation, pharmaceutical, semiconductor, microfluidics, food processing, process control, plastics manufacturing, tire manufacturing, testing, analysis, and plastics.
